SPRAYED POLYURETHANE FOAM INSTALLER COURSE

March 18 -22, 2013

Bolair Fluid Handling Systems (Edmonton, AB)

Sprayed Polyurethane Foam Training

SPF is the most efficient and cost effective insulation available to eliminate air infiltration, block moisture, and reduce HVAC costs.

This comprehensive 30+ hour program provides step-by-step instruction to safely and effectively insulate a building using SPF, how to select the right materials along with the best application techniques.

In addition, the program provides the necessary health & safety training and product accessories needed to work in both commercial and residential construction.

Building Professionals SPF Training courses offer:

- 50/50 ratio of hands-on and lecture training in quality facilities.
- Expert instructors with decades of combined industry experience whose goal is to teach you to succeed.
- Over 15 years experience in SPF training.
- Small class size (max 16 people), minimum of one instructor or more for every 8 students.
- Hands-on practice spraying a variety of mock-ups to simulate interior and exterior applications.

410-250 McDermot Avenue

Winnipeg, MB R3B 0S5

Phone: **204-956-5888**

Fax: **204-956-5819**

Email: training@buildingprofessionals.com

- Job Management

This 5-day course is composed of the following:

- Equipment Training – 1 day
- SPF and Transition Membrane Theory – 3 days
- Hands-On – daily
- Certification Exams/Practical Evaluations – 1 day (*optional*)

Why Invest in Training?

Training is becoming a solution, an investment in the future, and the way to succeed. Surveys from contractors highlight what the major benefits are:

- Reduced call-backs
- Increased Productivity of Installers
- Accurate Estimating
- Marketing Advantage: instills confidence

The benefits and value of training outweigh the cost: the small investment you make in training can be recovered in a very short time, not to mention that training can be tax deductible.

Training Location:

Bolair Fluid Handling Systems
4152 97 Street Northwest
Edmonton, AB
T6E 5Y6
